

THE UNIVERSITY OF
MELBOURNE

How inclusive is your and your child's experience of early childhood education?

My name is Olivia Penna and I'm a PhD candidate at the University of Melbourne.

I'm seeking to recruit parents or caregivers who have a child with a disability to provide a reflection of their child's experiences of inclusion during early childhood education.

What is required of me?

A one-on-one semi-structured discussion lasting approximately 45 minutes to one hour.

Why is this important?

There is limited reporting in Australia on the perspectives of parents and family of children with a disability, during early childhood.

If you are a parent or carer of a child with a diagnosed impairment, health condition or developmental delay and are interested in participating in the study, please get in touch!
